# Succes factors

I'm very happy because I had the opportunity to come to Montpellier, It's a great experience to see how do you work in France, how is your Education System and stay in the class with the other students. I had the opportunity to improve my French a lot, I had really fun with my partners and I have met many interesting people.

It was a little bit hard at the beginning to understand the classes and do my homework as well as talk with my colleagues, but everyone was very kind with me and everybody was helping me at, both teachers and patterns.

I just want to say that It is an unforgettable experience and it deserves the little effort that I had to do.
